Rationale

Our Early Years Curriculum is child centred and is founded on certain beliefs, which reflect the whole curriculum:

- Young children learn best from firsthand experience.
- Children have individual needs and talents.
- Children's independence should be fostered.
- Children need to acquire basic skills Our aim is to provide the children with a secure environment where they feel valued and confident.

We strive for their first experience of school to develop a positive attitude towards education and provide a foundation for their lifelong learning.

"Children are born ready, able, and eager to learn. They actively reach out to interact with other people, and in the world around them. Development is not an automatic process, however. It depends on each unique child having opportunities to interact in positive relationships and enabling environments."

Development Matters in the Early Years Foundation Stage, 2012

Children at this stage are entitled to provision which supports and extends their knowledge, understanding, skills and confidence. Early Years experience should build on what children already know, can do, and should encourage a positive outlook. We acknowledge that children bring differing experiences, interests, competencies, and knowledge to their early learning which defines their 'starting points'.

Our aims are as follows:

- To promote positive attitudes and dispositions to learning; an enthusiasm for knowledge, and a confidence in their ability to be successful learners.
- To enhance social skills, by providing opportunities that enable them to learn how to cooperate and work harmoniously alongside and with each other and listen to each other.
- To promote attention skills and persistence: their capacity to concentrate on their own play or group tasks.
- To promote and build resilience as well as the ability to take on a challenge.

Underpinning Principles

At The Grove Primary School, we believe that children have a right:

- To feel warm, comfortable, and welcome.
- To an environment which is clean, lively, and stimulating.
- To structure and order within their day.
- To feel safe, secure, confident, and valued.
- To make choices and to develop independence.
- To have special adults who will care for them.

The Grove Primary School EYFS Policy

- To have a balanced range of activities.
- To use materials and resources which are clean, well-cared for and safe.
- To have time to practise new skills and to try things out to develop their resilience.
- To have their successes celebrated.
- To have space to move around.

Provision for children within the foundation stage acknowledges these basic rights and ensures that:

- All our EYFS staff are paediatric first aid trained.
- Staff understand that children develop rapidly during the early years – physically, intellectually, emotionally, and socially.
- All children feel included, secure, and valued.
- Early years' experience builds on what children already know and can do.
- Every child is included in an inclusive environment suited to their needs and abilities.
- Parents and practitioners work hand in hand together.
- The curriculum is carefully structured.
- There are opportunities for children to engage in activities planned by adults and those that they plan or initiate themselves.
- Practitioners can observe and respond appropriately to children to further their next steps of learning.
- Well-planned, purposeful activity and appropriate intervention by staff used to engage children in the learning process.
- Rich and stimulating experiences provided within a learning environment, which is well planned and well organised.
- Practitioners are concerned with the holistic development of every child and are vigilant for indications of problems related to health, emotional wellbeing, abuse, learning and social interaction. When necessary, we consult with: Behaviour Support, Educational Psychologist, Health Visitor, Outreach, Occupational Therapists, Physiotherapists, Portage Workers, School Nurses, Sensory Support Service, Social Workers and Speech and Language Therapists.

Approach to Early Years Learning and Teaching

We aim to provide a well-planned and well-organised environment that gives children rich and stimulating experiences, through a carefully structured curriculum. We use Development Matters and Birth to Five to help us plan, assess and teach. We consider Characteristics of Effective Learning, which move through all areas of learning, playing and exploring, active learning and creating and thinking critically.

In the Early Years, the role of the adult will be to support children's development by providing a stimulating learning environment with a wide range of interesting materials for children to explore and experiment, to teach skills and techniques, broaden vocabulary and to value children's individual efforts. Using displays we can show children just how much we

The Grove Primary School EYFS Policy

value their achievements. Children gain a profound sense of pride through seeing their work carefully displayed and seeing photographs of themselves engaged in learning. We value the learning process as highly as we value the result.

Accordingly, the curriculum in the foundation stage will be based on the Early Learning Goals, which set out clearly what most children are expected to achieve before they leave Early Years at the end of Reception.

Prime areas of learning are:

- Physical Development
- Personal, Social and Emotional Development
- Communication and Language

Specific Areas of learning are:

- Literacy
- Mathematics
- Understanding of the World
- Expressive Arts and Design

Assessments

Within the first half term on entering Early Years, a teacher assessment is conducted with the child. This establishes a starting point to inform our planning and to track progress. In Reception, all children will be assessed using the Government Statutory baseline on entry. Outcomes of the assessments are available for parents to see if they wish. Assessments are used to inform curriculum planning and target setting for individual children. Assessment information is collected as an integral part of the teaching and learning process. A written report is prepared at the end of Nursery and the end of Reception year which forms the agenda for a formal discussion. This is held in the second half of the summer term. Informal discussions about children's progress are welcomed during parent meetings, held throughout the year, or you can arrange a one with class teacher if you have anything to discuss.

Parents/Liaison

We highly value the involvement of parents and carers as the main teacher for their child. Parents are encouraged and invited to:

- Discuss any issues or concerns with the adults in the class. They are available at the beginning and end of sessions and can arrange for parents/carers to make an appointment to see them if they need to discuss something further.
- Stay and play sessions, to observe how the children learn and see how their child is progressing in Early Years.

The Grove Primary School EYFS Policy

- Regular parents' drop-in sessions and meetings (half termly and termly)
- Regular photographs via tapestry to show their wonderful learning at home and at school.

Information for parents is provided through regular newsletters, tapestry posts, the school website and Facebook page. Regular contact is also maintained through each Reception child's reading home/schoolbook.

Organisation

On entry to Early Years, children are allocated a house team. Parents/Carers will receive a letter to inform them which house team they are in. Each morning, all children go to their entrance. Children start by doing a physical activity to develop their fine and gross motor skills. Reception is then split into groups to start their phonics, and Nursery may be split into groups to cover various areas of learning. All children can then access the areas of provision both indoors and out and choose what they would like to do. Adult led activities are also going on during this time.

Children who attend afternoon Nursery are greeted by two members of the Early Years team. Children sit in a group and sing songs or listen to a story before choosing what they would like to play with.

The children will be organised in different ways for teaching ranging from whole class to individual. The classroom is arranged to provide the children with easy access to materials and resources to develop their skills and independence. We also offer opportunities for children to learn outdoors in all areas of the curriculum.

Admissions

Children are admitted to the Early Years according to Durham County Admissions Policy and considering children's Special Educational Needs. The school works closely with all professional agencies working with families who may be able to identify any children with a specific need and identified needs will be shared with the parents/carers if a priority place is being considered. The admissions procedure is as follows:

- Before entry to Early Years (at age 3), an application form must be completed by the parent/carer. A receipt of application form slip is issued to the parent/carer via email and the school office keeps an up-to-date record.
- Lists are prepared for the children to be admitted two weeks prior to their 3rd birthday. If they are allocated a space, they will begin transition sessions the day after or as close to their 3rd birthday as possible.
- A letter is sent to the parent/carer offering a place and two visit dates. Each visit date is 1 hour long. The letter also includes a return slip to accept or refuse the place. On entry at three years old, children are usually allocated a session place. During the child's first visit, parents/carers are given the Early Years information booklet and other relevant paperwork to be completed.
- On the child's starting date, parents are encouraged to leave their child to settle in and meet new friends. If the child is upset, then parents are encouraged to stay.

The Grove Primary School EYFS Policy

Each child is an individual and sometimes they need more support from parents. Staff are sensitive to this issue and will support and advise parents on the best way forward. Once the child is settled parents/carers may leave.

- We would expect all children to be toilet trained when they start Nursery. If a child is not toilet-trained, staff will work with parents to promote independent toilet using skills. Parent/Carers are advised to inform staff of any difficulties with toilet training or medical problems. If a child has a medical condition, then a medical plan may need to be drawn between home, school, and a health visitor.
- Parent/Carers are asked to complete a form giving relevant information and contact numbers and are asked to inform staff of any changes of address or mobile telephone numbers etc.

Transition to Reception

Children in our Nursery transfer to many primary schools. Staff from these schools visit our school to meet the children. As our Early Years provides education from both nursery and reception children, the transition to the next stage is exceptionally smooth if a child remains in our reception class.

Parents are invited to attend a meeting prior to their children entering Reception stage. In this meeting, parents find out about life in Reception and what to expect. Children also have the opportunity to stay for lunch in the half term before they stay full time in school. Reception age children who have not attended nursery with us also have this opportunity. Parents/Carers are welcome to have their lunch with the children if they would like to. Staff stay with the reception class for the first week in the hall to reassure children and help with routines and procedures.

In the Autumn term, the parents are also invited to a meeting to discuss ways to support their child's learning, where Read, Write Inc and reading are explained to them. It provides children with an opportunity to liaise with their child's teacher and ask any questions that they may have.

Monitoring, Evaluation and Review of the Policy

The policy will be reviewed annually by the Early Years Lead and team and reported to the Governing Body. It is linked to other policies and is available always should parents wish to read it.
